Dermo-kneading anti-aging can then smooth the areas of the face with lines and wrinkles. The efficiency is increased tenfold with the choreographed movement of the Ridokis, accessories used to stimulate the facial expression zones. The skin is ready to receive the hydra-plumping mask with pure active collagen. The relaxation is prolonged with a nutri-regenerating massage of hands with an ultra-melting balm. The skin is plumped, like it has been “lifted”.
